

GARDEN CLUB

Only two percent of all insects are harmful. Why are they all in my garden?

I am sure many of us have had similar questions when we see our beautiful gardens being decimated by garden pests and wonder what can be done to stop the damage. Well, help is on the way! Linda Stewart's presentation for the November meeting is titled, **"What's That Bug and What Are We Going to Do About It"**. Linda will discuss the various pesky pests that are common to our yards and the best methods of treating these unwelcome guests.

In 2008 Linda became a docent at San Diego Botanic Gardens (formerly Quail Gardens) and in 2010 became a Master Gardener. During her years as a Master Gardener Linda has taken many roles and her latest direction has turned towards teaching. We are excited to have Linda share her extensive knowledge of pests with us (the insect variety that is).

Event Details: Wednesday November 12, Abravanel Hall, social time: 9:30 am and the meeting starts at 10 am.

Although attendees aren't required to be a Garden Club member to attend the monthly meetings – we encourage you to join the Garden Club for just \$10 per year – sign up at any meeting. Be sure to stop by the Share Table for gardening treasures. We look forward to seeing you at the meeting!

Save the Date for the Garden Club Holiday Luncheon

Wednesday, December 10th

Registration forms will be available at the November 12th meeting
